PROFESSOR WOOD'S
## HAIR RESTORATIVE.
**It has Worked Miracles!!**
THAT ALL THE BALD AND GRAY can be restored perfectly to original growth and color, so far as their locks are concerned, does not admit of doubt; besides, it will cure every possible disease of the scalp, whether developed as dandruff, itching, or in the shape of cutaneous eruptions—even scald-head—and in no possible case will it fail of curing, as if by magic, nervous or periodical Head-ache, and if used twice a week by the young regularly, it will preserve the color, and keep the hair from falling to any imaginable age. Read and judge.

MILLFORD, Worcester Co., Mass., Nov, 1855.
PROF. O. J. WOOD—Dear Sir:—I take pleasure in bearing voluntary testimony to the magic effects of your wonderful Hair Restorative. As far back as 1836, my hair commenced falling off, until the top of my scalp became bald and smooth as glass, and it has continued to fall for a great many years, notwithstanding I have used many celebrated preparations for restoration. Seeing your advertisement, I was induced to give your article a trial, and to my utter astonishment, found, after a few applications, that my hair became firmly set, and assumed a glossy and beautiful appearance, and by the time I had used a quart bottle, my bald head was covered over with a young and vigorous growth of hair, which is now from one to two inches and a half in length, and growing fast.
Yours truly,
HENRY GOODRICH

CHARLESTON, Mass., Aug. 9, 1855.
GENTS:—Nothing but a duty and sympathy that I feel to communicate to others that are afflicted as I have been would induce me to give this public acknowledgment of the benefit I have received from Prof. Wood's Hair Restorative. When I first commenced using it, my hair was quite gray, and in spots entirely bald. I have now used the Restorative about five months, and my hair is entirely changed to its original color, brown, and the new hair is over three inches in length on the spots where it was bald. I have also been much gratified at the healthy moisture and vigor of the hair, which before was dry, and it has ceased to come out as formerly.
Respectfully yours &c
MRS. R. A. STODDARD.

*From Mrs. Ingalls, a well known nurse in Boston.*
BOSTON, Oct 19, 1855.
GENTS:—At your request, and being so highly pleased with the effects of the Restorative, I am free to state that my hair had become quite thin, and entirely white. I have for the last five years been in the habit of using dye, but hearing of the extraordinary effects of this article, I was induced to try it. My hair has been restored to its original thickness, and also to its former color, which is light brown.
Yours respectfully,
MRS. INGALLS.

The following is from the Pastor of the Orthodox Church, Brookfield:—
BROOKFIELD, Mass., Jan 12, 1855.
PROF. WOOD—Dear Sir—Having made trial of your Hair Restorative, it gives me pleasure to say, that its effects have been excellent in removing inflammation, dandruff, and a constant tendency to itching, with which I have been troubled from my childhood, and has also restored the hair, which was becoming gray, to its original color. I have used no other article with anything like the same pleasure and profit.
Yours truly,
J. K. BRAGG

*(From the Jersey City Telegraph.)*
WHAT IS IT FOR—THIS WOOD'S HAIR RESTORATIVE?—Is a question asked daily by hundreds. We answer without hesitation, or fear of contradiction, that it is the only article known which will do all it promises for the human hair. *It will renew its growth—it will stop its falling—it will restore its natural color!* It is not a hair dye, but a speedy and efficacious Restorative.

In style and general appearance it resembles—and is quite equal to—the London Illustrated News, which is world-renowned for the excellence and variety of its illustrations. The New York paper, however, is sold at half the price of its London prototype. The engravings in *Frank Leslie* are infinitely superior to those in *Ballou's Pictorial.—Whig, Easton, Pa.*

**City Election---Republican Caucus.**

The time for our annual Municipal election is close at hand—(Monday next, March 9),—and it will be seen that the Republican City Committee have called a general nominating caucus, to be held at City Hall on Friday evening, to select a candidate for the Mayoralty for the ensuing year, and Ward caucuses for Saturday evening, in the several Ward rooms, to nominate candidates for the City Council and for Ward officers

Let these primary meetings be fully attended and candidates selected with a view to the best interests of the city, and such as will be acceptable to the people Those who stay away from the nominating caucuses have not the best right to complain of nominations that may be made

We do not know how far the members of the present City Government may wish or consent to be candidates for re election, but we think it only just to say that the affairs of the city have, as we believe, been well and faithfully administered during the year just expired,—and very generally to the acceptance of the citizens.

THE KINGDOM OF COREA, which has recently opened its ports to the vessels of all nations, as stated in the foreign despatches of last week, is quite an important country in a commercial view—and its present liberal movement is more important perhaps than its trade, in the example which it sets to the neighboring populous nations of Asia and the Western Pacific Ocean. The Boston Post gives a concise account of Corea, from which we take the following facts It is a large peninsula east of China, formed on one side by the Yellow Sea and on the other by the sea of Japan It is 400 miles in length and 160 in average breadth, has an area of 95,000 miles and a population of eight millions The western part of Corea was found by Hall and Maxwell to be an immense archipelago of small islands

The king of Corea is a tributary to China yet it is a sort of sovereign state, governed by its own king—the Chinese emperor usually doing little or nothing more than ratifying the king's decrees The government is according to the old mode of despotic centralization, the king being the head of the church and state of the hierarchial and secular departments The king owns nearly all the land of the kingdom and derives his revenues from renting it—taking a tithe of all the produce The religion is Budhism, introduced from China in the year 372

The history of Corea is briefly this The Tartars first governed it, but before Christ 1120, the Chinese conquered it The Japanese took it in 1592 but it was reconquered by the Chinese in 1698 and the king now sends every year a tribute of 800 ounces of silver, and also every year an embassy with presents, communicating whatever political events have transpired

The principal products of the country are wheat, millet, rice ginseng, tobacco silk, cotton, and hemp furs from vast jungles of the north, gold silver, rock salt, and coal The main manufactures are coarse articles of hemp, cotton, and grass, pottery and porcelain, sometimes of monstrous size paper and paper hats, umbrellas, sacks, cloaks Trade heretofore, has been discountenanced by the government but quite an extensive intercourse has been kept up with Japan and China, whence they import pepper, aromatic woods, and goods of Dutch manufacture.

Little is known of this country, all ingress being denied to Europeans, and all egress denied to natives—though in modern times a few French missionaries have penetrated the country There is said to be an extensive Corean literature, and the king's residence has an extensive library. The knowledge of this curious people is so limited that it is not easy to tell what notions they may buy, now that the ports are to be thrown open

The House of Representatives by its votes of Saturday, emphatically condemned Mr Matteson of New York, on the report of the investigating committee, although they could not expel him in consequence of his resignation —On that day a letter was sent to the Speaker from Mr Matteson, who was not present, tendering his resignation A motion to table the Committee's resolutions in his case was disagreed to—yeas 95, nays 102 A point was raised, that as Mr Matteson had resigned, the House could not further proceed in his case, but the Speaker decided that the House must determine the question for itself, and the decision was sustained. After further debate, another motion to table the resolutions was lost —93 yeas to 108 nays, and the first one, setting forth his complicity in the Des Moines affair, was read, and passed by 145 against 17 —Subsequently the second and third resolutions were read, and after a refusal to lay them on the table, the second one, declaring Mr. Matteson unworthy to be a member of the House, was passed, while the last one, expelling him, was laid on the table.

SUSPENSION BRIDGE FROM NEW YORK TO BROOKLYN. A bill has been offered in the New York Assembly to incorporate a company, the object of which shall be to erect a bridge over the East River between New York and Brooklyn, in such a manner as not to impede navigation.

FOURTH OF MARCH BALL. To night the Bangor Light Infantry close their series of Dancing Assemblies, by a grand Fourth of March Ball at Norombega Hall

We understand that every arrangement has been made to secure a pleasant evening to those who may attend—and we can safely say that with the Board of management announced, it cannot fail of being a capital affair, and one that will do credit to the company Wasgatt's Band, assisted by several pieces from Boston, has been engaged for the occasion, and ample arrangements have been made to secure the clothes of the dancers from intruders by checking them to each person Capt Bickford will furnish the supper

We have no doubt that there will be a large attendance of those persons who enjoy such an entertainment, and they will be perfectly satisfied

BANGOR THEOLOGICAL SEMINARY —We find on our table a General Catalogue of this institution, for 1857, neatly printed by Mr S. S Smith It gives the names of all the Alumni, back to 1820 The whole number who have *completed* the prescribed course of study at the Seminary is 315, of whom 285 are now supposed to be living—30 only known to be deceased which is a remarkably small proportion, considering that more than one hundred of the alumni graduated more than 20 years ago —More than one half of the alumni are now resident beyond the limits of Maine,—a number of them in foreign countries, as Missionaries of the Cross

The number now in the institution is 40—in the Senior Class 16, Middle 12, Junior 10, Resident Licentiates 2

REV MR ALLEN'S DISCOURSE UPON THE DEATH OF DR KANE When noticing the tribute paid to the memory of Dr Kane, by Rev Mr Dalton, on Sabbath afternoon, we were not aware that Rev. Mr Allen, of the Union St (Unitarian) Church, had delivered a discourse in the forenoon, upon the same subject. He did so, however, and we learn that it was a most eloquent and affecting tribute to the virtues and services of the young votary of science and humanity whose early death the nation now mourns

THE INAUGURATION COAT. APPROPRIATIONS FOR MAINE. The appropriation bill [illegible]

THE RUSH TO WASHINGTON —The Star states that the pressure of strangers to the Capital is immense—much larger than ever before—and that on the Fourth of March, there would be 100 000 strangers in Washington Of this number, one-half at least, will be either office-holders anxious to remain in their places, or office-seekers and their male and female friends

ASSISTANT SECRETARY OF STATE It is understood, says the Washington correspondent of the New York Herald, that General Cass, has, with the consent of Mr. Buchanan, written to his son, Major Cass, now Charge at Rome, to resign his post and return home immediately It is the intention of General Cass to appoint Major Cass Assistant Secretary of State.

The Kansas Legislature have been guilty of more outrageous special legislation. A bill has passed, giving the County Judges jurisdiction in criminal cases, and providing that persons may be tried before these petty Courts, *without a jury and without being indicted.*

It is stated that a brother of Eckel, the reputed murderer of Dr Burdell, residing at Mount Pleasant, Hunterdon county, N J, has been so affected in mind by the late finding of the grand jury, that it will probably be necessary to remove him to the Lunatic Asylum

John B Gough, at the close of his lecture in Chicago, was presented with a beautiful casket filled with gold coin, and a rich, elaborate vase, the whole cost of the testimonial being $600 Two hundred ladies of Chicago were the donors

The Burdell case continues to excite deep interest in New York Further revelations have recently been made, implicating a certain mysterious person supposed to be a physician formerly in the employ of Dr. Burdell, against whom he entertained an enmity A man has also been found, who was deterred from coming forward to testify by fear of Coroner Connery's severity, who says he saw a man and woman leave the house No 31 Bond street at 11 o'clock on the night of the murder, and proceed to the East River, into which they threw a bundle. It is reported that Governor King has sent written directions to the District Attorney, Mr Hall, requiring him to take the necessary legal measures for the removal of Dr Connery from his office as Coroner. The Coroner is, it appears to be impeached on the ground of incompetency and improper conduct, but he is determined to contest to the last the power and authority of the Governor, and for that purpose has already engaged counsel. The case will probably come before the proper court in the course of three or four days.

LEARNED IGNORANCE. When the committee of the French Academy were employed in preparing a well known Academy Dictionary, Cuvier, the celebrated naturalist, came into the room where they were holding a session.—"Glad to see you, Monsieur Cuvier," said one of the forty; "we have just finished a definition which we think quite satisfactory, but upon which we would like to have your opinion. We have been defining the word Crab, a small red fish, which walks backward."—"Perfect, gentlemen," said Cuvier; "only I will make one small observation in natural history: The crab is not a fish—it is not red—and it does not walk backwards! With these exceptions, your definition is excellent."

ATTEMPT TO DESTROY A PASSENGER TRAIN ON THE WESTERN RAILROAD An attempt was made on Monday night, 23d ult, to throw the express train from New York for Boston, off the track at a place near the Charlton Station, where the embankment was about *ninety* feet high The engine encountered some obstruction, but after a temporary check passed it —On examination in the morning, it was found that a heavy iron rail had been laid directly across the track, and the engine struck it with such force as to double the rail like a hoop, and finally threw it from the track, about one hundred feet from where it first struck, without doing any further damage Two men have been arrested and examined before the Police Court at Worcester The evidence was so strong against them that they were held for trial and committed in default of bail Their names are John H Hardy and Warren Williams They had been put off the train the day before for not paying their fare

LARGE FIGURES. Very few of our readers, says the Chicago Press, probably have any adequate idea of the extent and magnitude of the transactions of the heavier business firms in a commercial centre like Chicago. Quietly moving on from day to day, without noise and parade, they are reaching aggregates for the business season which are only to be counted in millions. Some of our Water street firms, during the past year, handled more money than did the United States Government a few years since during a like period

One of these firms handled during the business season of 1856 the aggregate of *fifteen millions of dollars* in their transactions in grain and other descriptions of produce There has passed through their hands 5 266,000 bushels of grain, chiefly wheat Their check account at a single one of our banking institutions foots up nearly *eight millions* of dollars.

In Salem, on Monday, Mr George S. Wiggin was killed by an explosion at the gas works of the Naumkeag Factory He was painting the top of the gas holder, with a light in his hand, when he accidentally stepped upon a valve which let a column of gas ignite from his lamp, and caused an explosion as loud as a nine pound cannon, which wrecked the building and shook the very earth beneath —Mr Wiggin was horribly burned, though he immediately jumped into some water at hand —so much so that the flesh peeled from his legs as he walked into his house, and he died in the course of twelve hours He leaves a wife and three small children

PISTOL DISCHARGED AT A RAILROAD TRAIN —Thursday evening, as the outward train on the Fitchburg Railroad was near the East Cambridge station, the passengers were startled by a bright flash through the car windows, and the near report of a pistol Some villain had apparently aimed at the train, but fortunately the charge did not make an entrance The conductor stated that an evening or two previous, in the same vicinity, a stone was thrown at the cars, but the passengers escaped injury Both these assaults came from the East Cambridge side of the track —*Boston Times*

GROVER & BAKER'S

**New Family Sewing Machines!**

PRICE $75.00.

**Reasons**

Why Grover & Baker's SEWING MACHINES —IS— Universally preferred for Family Sewing.

1st It is more simple and easily kept in order than any other Machine

2d It makes a seam which will not rip or ravel though every third stitch is cut

3d It sews from two ordinary spools, and thus all trouble of winding thread is avoided, while the same Machine can be adapted, by a simple change of spools to all varieties of work.

4th The same Machine runs silk, linen thread and common spool cotton, with equal facility

5th The seam is as elastic as the most elastic fabric so that it is free from all liability to break in washing ironing or otherwise

6th The stitch made by this Machine is more beautiful than any other made either by hand or machine

We have been appointed agents for these Machines and have them for exhibition and sale at our store, where the public are invited to examine them FENNO & H[illegible] feb[illegible]

## WATER PROOF BLACKING,

AND LEATHER PRESERVATIVE.

*Keep your Feet dry and you will seldom need a Physician*

IS it not a truth that when the feet are often wet, it is one of the greatest causes of colds and consumption? It is a truth that when leather is often wet and dried it soon becomes hard, stiff, and cracks but when it is water proof this is remedied By the application of this preservative, it remains soft and entirely impervious to water

After being engaged for 20 years in the manufacture of Leather in all its branches and being often troubled with wet feet myself I was led to experimenting on different compositions, and found it easy to make it water proof, but at the same time extremely injurious to the leather At last by a chemical process I discovered a preparation which perfectly harmonizes with the astringent properties with which leather is tanned. It will not only make leather water proof, but it likewise softens the leather and it will

**Positively wear twice as long.**

I have now used it for three years and a large part of that time have worked in a wet Tannery, with my boots constantly in water, and have not had my feet wet during that time I can therefore in all confidence recommend it to the public as the best article in the market

## Singer's Sewing Machines.

THESE celebrated machines are in practical and profitable use in all parts of the civilized world In all the various trades, and in sewing every sort of fabric, either of cloth or leather they have been fully tried and approved. Sewing machines of other manufacturers often fail to work, but SINGER'S MACHINES ALWAYS OPERATE PERFECTLY, being strong, durable, and complete in contrivance and workmanship A perfect Sewing Machine kept employed affords a clear profit of $1000 a year; but an imperfect one is a cause of constant vexation and loss The entire *reliability* of our machines is one great reason for their unparalleled popularity

MACHINES FOR FAMILY SEWING, of a frail and delicate constriction, are recommended by other manufacturers Such machines are made to catch the eye, not to perform substantial work The truth is, family sewing machines ought to be stronger than any other, because they go into less skillful hands than when sold to manufacturers, and are used for a greater variety of work The machines which have proved best for all other purposes muct be best for family use, and they are Singer's The speed of our machines has lately been doubled No other can compare with them in quantity of work,

New machines, of the latest improved style will be exchanged on liberal terms, for old sewing machines, of our own make, or for operative machines of other manufacturers Local agents wanted to sell our machines

## Kennebec Journal for 1857.

DURING the approaching session of the Legislature the undersigned will continue the publication of the *Three weekly Journal*, being the XIIIth Volume of the same

As is well known, the chief purpose of this paper is to afford the public of Maine a faithful account of the deliberations and actions of its Legislature With the reports of the Legislative doings we intend also to publish the proceedings of Congress, as they are given in the best reports from Washington

As the renewal of all the Bank Charters in the State will come before the Legislature this Winter, the debates and proceedings will be of peculiar interest to all who are interested in Bank property

The numerous lines of railroad which now traverse the State in all directions, will enable a very large proportion of our subscribers to receive their papers a few hours after their publication This fact renders a subscription to the Three Weekly more desirable and satisfactory than in former years

The Three-Weekly Journal will be published on *Monday, Wednesday* and *Friday* mornings —The price will be

## MEDICAL DISCOVERY

**Of the Age.**

Dr KENNEDY, of Roxbury, has discovered in one of our *common pasture weeds*, a remedy that cures

## EVERY KIND OF HUMOR;

**From the worst Scrofula down to a common Pimple.**

He has tried it in over 1100 cases, and never failed except in two cases, (both thunder humor ) He has now in his possession over two hundred certificates of its virtue, all within twenty miles of Boston

Two bottles are warranted to cure a nursing sore mouth

One to three bottles will cure the worst kind of pimples on the face

Two to three bottles will clear the system of biles

Two bottles are warranted to cure the worst canker in the mouth and stomach

Three to five bottles are warranted to cure the worst case of Erysipelas

One to two bottles are warranted to cure all humor in the eyes

Two bottles are warranted to cure running of the ears and blotches among the hair

Four to six bottles are warranted to cure corrupt and running ulcers

One bottle will cure scaly eruption of the skin.

Two to three bottles are warranted to cure the worst cases of ringworm

Two to three bottles are warranted to cure the most desperate case of rheumatism

Three to four bottles are warranted to cure the salt rheum

Five to eight bottles will cure the worst cases of scrofula

A benefit is always experienced from the first bottle, and a perfect cure is warranted when the above quantity is taken

Reader, I peddled over a thousand bottles of this in the vicinity of Boston I know the effect of it in every case So sure as water will extinguish fire, so sure will this cure humor I never sold a bottle of it but that sold another, after a trial it always speaks for itself There are two things about this herb that appear to me surprising first, that it grows in our pastures, in some places quite plentiful, and yet its value has never been known until I discovered it in 1846—second, that it should cure all kinds of humor

In order to give some idea of the sudden rise and great popularity of the discovery, I will state that in April, 1853, I peddled it, and sold about six bottles per day—in April, 1854, I sold over one thousand bottles per day of it

Some of the wholesale Druggists who have been in business twenty and thirty years, say that nothing in the annals of patent medicines was ever like it There is a universal praise of it from all quarters

In my own practice I always kept it strictly for humors—but since its introduction as a general family medicine, great and wonderful virtues have been found in it that I never suspected.

Several cases of epileptic fits—a disease which was always considered incurable, have been cured by a few bottles O, what a mercy if it will prove effectual in all cases of that awful malady—there are but few who have seen more of it than I have

I know of several cases of Dropsy, all of them aged people, cured by it For the various diseases of the Liver, Sick Headache, Dyspepsia, Asthma Fever and Ague, Pain in the Side, Diseases of the Spine, and particularly in Diseases of the Kidneys, &c, the discovery has done more good than any medicine ever known

No change of diet ever necessary—eat the best you can get, and enough of it

DIRECTIONS FOR USE —Adults one table spoon ful per day—Children over ten years dessert spoon ful—Children from five to eight years tea spoon ful As no directions can be applicable to all constitutions, take sufficient to operate on the bowels twice a day

The Principal Office for the State of Maine and the British Provinces, is at the Drug and Medicine Establishment of H H HAY 15 & 17 *Market Square, Portland Maine*, to whom all orders should be addressed Sold by respectable Druggists throughout the United States and British Provinces

DR J C AYER I do not hesitate to say the best remedy I have ever found for Coughs, Hoarseness, Influenza, and the concomitant symptoms of a Cold is your CHERRY PECTORAL Its constant use in my practice and my family for the last ten years has shown it to possess superior virtues for the treatment of these complaints EBEN KNIGHT, M D

A B MORTLEY, Esq., of Utica N Y writes "I have used your PECTORAL myself and in my family ever since you invented it, and believe it the best medicine for its purpose ever put out With a bad cold I should sooner pay twenty five dollars for a bottle than do without it, or take any other remedy"

A A RAMSEY M D Albion, Monroe Co Iowa writes Sept 6 1855 During my practice of many years I have found nothing equal to your CHERRY PECTORAL for giving ease and relief to consumptive patients or curing such as are curable"

We might add volumes of evidence but the most convincing proof of the virtues of this remedy is found in its effects upon trial

**Consumption.**

Probably no one remedy has ever been known which cured so many and such dangerous cases as this Some no human aid can reach but even to those the CHERRY PECTORAL affords relief and comfort.

ASTOR HOUSE, NEW YORK CITY March 5 1856

DOCTOR AYER, LOWELL I feel it a duty and a pleasure to inform you what your CHERRY PECTORAL has done for my wife She had been five months laboring under the dangerous symptoms of Consumption from which no aid we could procure gave her much relief She was steadily failing until Dr Strong of this city where we have come for advice recommended a trial of your medicine We bless his kindness as we do your skill for she has recovered from that day She is not yet as strong as she used to be but is free from her cough and calls herself well
Yours with gratitude and regard

## Ayer's Cathartic Pills.

THE sciences of Chemistry and Medicine have been taxed their utmost to produce this best most perfect purgative which is known to man Innumerable proofs are shown that these Pills have virtues which surpass in excellence the ordinary medicines and that they win unprecedentedly upon the esteem of all men They are safe and pleasant to take but powerful to cure Their penetrating properties stimulate the vital activities of the body remove the obstructions of its organs purify the blood and expel disease They purge out the foul humors which breed and grow distemper, stimulate sluggish or disordered organs into their natural action and impart healthy tone with strength to the whole system Not only do they cure the every-day complaints of every body but also formidable and dangerous diseases that have baffled the best of human skill While they produce powerful effects they are at the same time in diminished doses the safest and best physic that can be employed for children Being sugar-coated, they are pleasant to take and being purely vegetable are free from any risk of harm Cures have been made which surpass belief were they not substantiated by men of such exalted position and character as to forbid the suspicion of untruth Many eminent clergymen and physicians have lent their names to certify to the public the reliability of my remedies while others have sent me the assurance of their conviction that my Preparations contribute immensely to the relief of my afflicted suffering fellowmen

The Agent below named is pleased to furnish gratis my American Almanac containing directions for their use and certificates of their cures, of the following complaints —

Costiveness Bilious Complaints Rheumatism Dropsy Heartburn Headache arising from a foul Stomach Nausea Indigestion Morbid Inaction of the Bowels and Pain arising therefrom Flatulency Loss of Appetite all Ulcerous and Cutaneous Diseases which require an evacuant Medicine Scrofula or King's Evil They also by purifying the blood and stimulating the system cure many complaints which it would not be supposed they could reach such as Deafness Partial Blindness Neuralgia and Nervous Irritability Derangements of the Liver and Kidneys Gout and other kindred complaints arising from a low state of the body or obstruction of its functions

Do not be put off by unprincipled dealers with some other pill they make more profit on. Ask for AYER'S PILLS and take nothing else No other they can give you compares with this in its intrinsic value or curative powers The sick want the best aid there is for them and they should have it.

This excellent Remedy, discovered by the world renowned DR. CULVERWELL, in London, the most successful practitioner in his line for the last 30 years, is now for the first time offered to the afflicted in the fullest confidence of its extraordinary virtues Its salutary effect is almost instantly felt, and it will doubtless at once supersede all other means resorted to medical surgical or otherwise, to arrest and to cure this awful disease A single trial will convince the most sceptical that a safe and perfect cure may now be had at the expense of a few dollars which up to this time could not be procured for all the gold of the world The heavy expenses incurred in bringing this article before the public could not be risked were its superiority over every means hitherto employed for the same purpose not a sure guarantee that its employment by *one* person would, through recommendation, result in an eventual sale to many

DR CULVERWELL S admirable and entirely novel plan of treating these diseases, is, in the interest of humanity, recommended to physicians throughout the land, to whom every facility will be afforded for testing its wonderful efficacy in their private practice
